EERE PROJECT MANAGEMENT CENTER
NEPA DETERMINATION**

RECIPIENT: State of South Dakota

STATE: SD

PROJECT
TITLE : Statewide Energy Retrofits SEP (T)

Funding Opportunity Announcement Number DE-FOA-0000052	Procurement Instrument Number DE-EE0000145	NEPA Control Number GFO-09-152-006	CID Number 0
---	---	---------------------------------------	-----------------

Based on my review of the information concerning the proposed action, as NEPA Compliance Officer (authorized under DOE Order 451.1A), I have made the following determination:

CX, EA, EIS APPENDIX AND NUMBER:

Description:

- A11 Technical advice and planning assistance to international, national, state, and local organizations.
- A9 Information gathering (including, but not limited to, literature surveys, inventories, audits), data analysis (including computer modeling), document preparation (such as conceptual design or feasibility studies, analytical energy supply and demand studies), and dissemination (including, but not limited to, document mailings, publication, and distribution; and classroom training and informational programs), but not including site characterization or environmental monitoring.
- B5.1 Actions to conserve energy, demonstrate potential energy conservation, and promote energy-efficiency that do not increase the indoor concentrations of potentially harmful substances. These actions may involve financial and technical assistance to individuals (such as builders, owners, consultants, designers), organizations (such as utilities), and state and local governments. Covered actions include, but are not limited to: programmed lowering of thermostat settings, placement of timers on hot water heaters, installation of solar hot water systems, installation of efficient lighting, improvements in generator efficiency and appliance efficiency ratings, development of energy-efficient manufacturing or industrial practices, and small-scale conservation and renewable energy research and development and pilot projects. The actions could involve building renovations or new structures in commercial, residential, agricultural, or industrial sectors. These actions do not include rulemakings, standard-settings, or proposed DOE legislation.

Rational for determination:

The State of Idaho will administer their "Statewide Energy Retrofits" program within the bounds of the signed SEP NEPA Template. All projects under this program are bounded in compliance with the uploaded and signed SEP Template for Expedited NEPA review.

Any projects that falls outside the scope of the template are conditioned pending further NEPA review.

The projects that fall under the Statewide Energy Retrofit program comprise technical advice, and actions to conserve energy; therefore they are categorized under CX A9, A11, and B5.1.
